

## Your Cooperative, Now and Forever

Who originally banded together and built the infrastructure to bring electricity to our rural area? We did!

Who has spent more than 70 years keeping your lights on and finding solutions and creating programs and services to meet your changing energy needs? We have!

Who shows up when another cooperative needs assistance during an outage? We do!

Who owns this electric cooperative? You do!

Who will ALWAYS be here to serve your energy needs? We are YOUR electric cooperative, and we will!
