

I have

an amazing wife  
who's always  
by my side

two kids who always  
keep me on my toes

a family that gives  
me endless strength

an electric cooperative that's always  
looking out for my family.

At Clay Electric Co-operative, Inc., we get our strength from a family as well. It's a family of over 730 cooperatives—who all work together. And together, we have strength. We have a greater ability to provide a reliable source of electricity. We also have greater purchasing power, which enables us to keep costs in check. Together, we'll always be looking out for you, your family and your community.
