

Help us help you!

We all know how quickly life moves these days and we want to make sure we don't slow you down. Keeping current phone numbers on file with us will save you time when calling with questions, to pay a bill or to report an outage.

Our phone system is set up to "screen pop" accounts by phone number, but **ONLY** if the number is in our system. Therefore when you call our office, there is no time wasted having to give us a name, an account number or an address. If we have your current phone numbers on file, we will know who we are speaking with as soon as we pick up the phone.
