

# ELECTRIC CO-OPS WERE CONSTRUCTED WITH

# LINES, POLES AND THE FOOLHARDY NOTION THAT

# WE ALL PROSPER BY HELPING EACH OTHER.

It seems obvious in retrospect, but there was a time when getting electricity outside the city limits wasn't a given. Today, as we celebrate our 75th Anniversary, the spirit of community that cooperatives were built upon continues to thrive. Classroom Empowerment Grants for schools, Home rebates for energy efficiency, Youth to Washington for high school students; these are just a few of the ways we are a part of the same community.
