

ELECTRIC CO-OPS WERE CONSTRUCTED WITH LINES, POLES AND THE FOOLHARDY NOTION THAT WE ALL PROSPER BY HELPING EACH OTHER.

It seems obvious in retrospect, but there was a time when getting electricity outside of the city limits wasn't a given. Today, the spirit of community that co-ops were built upon continues to thrive. As we reflect on the many changes that have occurred over the last 75 years, be assured that our mission of "Improving Our Members' Quality of Life" has not. While some things come and go, that mission will always remain a constant at your cooperative.
