

let a Marathon water heater restore calm to your life

With busy lives, who has time to digest all of the information out there about water heaters? Because the Marathon tank is “warranted not to leak, for as long as you own your home,” it may very well be the last time you make a decision about a water heater. And with its superior dependability and efficiency, Marathon truly can provide hot water for life.

- **Seamless Polybutene Tank** -no rust, corrosion, leaks
- **Envirofoam Insulation** - energy efficient and climate friendly
- **Heating Elements** - designed for hard water conditions
- **Bowl-Shaped Bottom** - allows more complete sediment draining
