

Operations manager Randy Long, loss control supervisor Brenda Haverfield, board president Robert Brown, and manager of regulatory compliance at the Association of Illinois Electric Cooperatives Steve Davis.

Safety First

Illinois Rural Electric Cooperative was recently awarded a certificate of safety achievement from the Association of Illinois Electric Cooperatives and the Rural Electric Safety Achievement Program for demonstrating its commitment to safety.

A facilities walkthrough inspection and on the job crew visits were done by individuals from other co-ops and the AIEC. These inspections occur every three years, along with us conducting our own yearly inspection.
