Linemen's Rodeo

(L-R) Illinois Electric linemen Ryan Little, Joe Alexander, and Cole Hurrelbrink.

A team of linemen from Illinois Electric Cooperative was Second Runner-Up at the 18th annual Lineman's Safety Rodeo sponsored by the Association of Illinois Electric Cooperatives (AIEC) on Friday, Sept. 18. This year 14 teams participated in the competition.

Each year at the rodeo, teams of linemen from Illinois electric cooperatives participate in competitive events using skills that focus on agility, speed and accuracy. While these skills are part of the competition judging, above all the linemen are judged on safe work practices.

Line personnel competed in five team events and three individual events. Team events included Hurt Man Rescue, Egg Climb (linemen climb a 30-foot pole with a raw egg in their mouth), H Structure Obstacle Course, and two Mystery Events. Individuals competed in the Egg Climb and H Structure Obstacle Course. Scores for each event use a 100-point scale and are based upon completion time and proper execution of the task, including safe work practices.

Deductions were made to a team or individual's overall performance score due to such things as slipping when climbing poles, dropping tools or executing inappropriate procedures or methods.

The Illinois Electric team of Joe Alexander, Cole Hurrelbrink and Ryan Little persevered through the challenging events to be Second Runner-Up.

The Lineman's Safety Rodeo was held on the Chuck West Lineman's Training Field at Lincoln Land Community College (LLCC) in Springfield. LLCC also hosts a lineman training program coordinated by the AIEC. Courses are designed for new linemen and to help existing electric line personnel improve their work skills in safe and efficient ways.
