

Things that go bump in the night

 n Halloween, as little ghouls and goblins trick-or-treat from door to door, bumps in the night are to be expected, but those aren't sounds you want to hear on other nights. To protect your home, farm or business, Rural Electric Convenience Cooperative offers a convenient security light rental program with a choice of high-pressure sodium or LED lighting fixtures. One monthly payment includes the electricity used plus any maintenance needed on the light!
