Spoon River Special

Spoon River Electric Cooperative

930 South Fifth Avenue, Canton, Ill.

Telephone: Area Code 309—647-2700

Directors whose terms begin in December are (from left) Bernard Camp of Avon r.r. 1, Edward J. DeWeerth of Farmington r.r. 1, Donald L. Elliott of Canton r.r. 4 and Turner W. Markley of Gilson r.r. 1.

Continued Growth Predicted In Annual Meeting Reports

The many past achievements of Spoon River Electric Co-operative are, in large part, due to the membership's active interest and support, loyalty which must be continued in the years ahead.

Ralph E. Erb of Ipava r.r. 1, president of the cooperative's board of directors, spoke those words at the members' 32nd annual meeting recently. Then he told the crowd: "I'm pleased to see as many as are here today, but I hope even more will become involved in the affairs of their cooperative. You can help by talking to your neighbors and urging their participation."

LISTENING WERE approximately 500 persons gathered in the Canton Senior High School Auditorium. They heard Mr. Erb explain that even greater cooperation is needed in the future because Spoon River, like other electric cooperatives, faces a growing demand for more and more electricity.

"And we're preparing for that growth," Mr. Erb continued, explaining that the nation's 1,000 rural electric systems are organizing

a new financing institution. The National Rural Utilities Cooperative Finance Corporation, he said, is designed to provide new capital needed to meet the growing needs of rural areas, needs which show that the use of electricity is being doubled approximately every seven years.

Mr. Erb further explained that the new financing institution will supplement and not replace the need for loans from the Rural Electrification Administration. It will be funded by the cooperatives themselves with assistance from the private money market. No tax funds are to be involved.

WILLIAM H. McCAMEY, manager of the cooperative, also discussed the future in his annual meeting report. "Our consulting engineers," he said, "are working with us to develop a new long-range system engineering plan to assure that future capital expenditures will provide the most economical and practical solution to the problems of future growth.

"It is our intention to meet these challenges with the foresight and

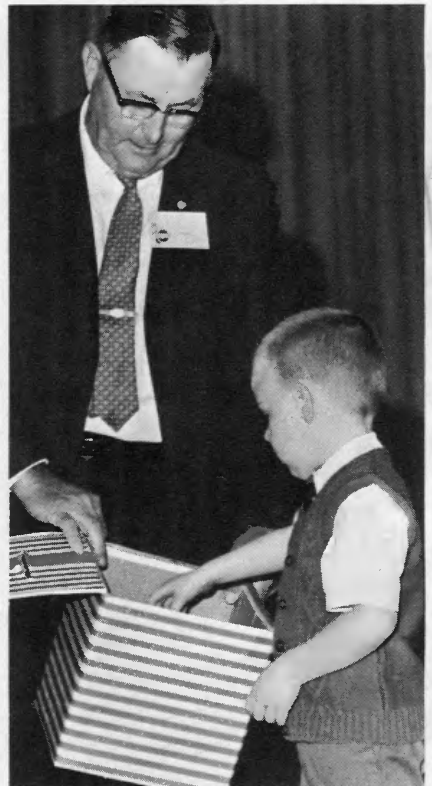

planning that will allow us to take advantage of all the operating economies and methods of efficiency available to us."

Turning from his printed report, Mr. McCamey looked out across the audience and urged the members to give the cooperative advance notice of their installation of large electrical loads.

"We'll be better able to give you the service you need, when you need it, without resulting outages from overloaded lines and transformers if you give us this advance notice," the manager said.

"Remember, Spoon River is here to serve its members and we're going to do the best we can, but we need your help. So, give us a call whenever you have a question or know you're going to add some equipment."

In their business meeting, the members adopted a revised set of

Board President Ralph E. Erb of Ipava r.r. 1 gets an assist from his grandson, Scott Markley, in drawing names of members who received the many annual meeting attendance awards.

bylaws. As explained by the cooperative's attorney, Chester J. Claudon, there are three major changes.

One changes the date of the annual meeting to sometime in November or December with the exact date to be determined by the board of directors. It is believed the later date will allow greater attendance because of the busy farm harvest season normally experienced in September.

A SECOND CHANGE allows directors to serve two consecutive three-year terms, and then states they must retire before possible election at a later date. The change is exactly that decided by the members at the 1968 annual meeting.

A third change calls for directors to be seated on the board immediately following their election at the annual meeting. Until now, and including this year, newly elected directors are not seated until the board's regular meeting in December.

At the meeting, members elected the following directors:

District No. 1—Turner W. Markley of Gilson r.r. 1 was elected to his second three-year term over John W. Hessler of Galesburg r.r. 3.

District No. 2—Bernard Camp, a former director of Avon r.r. 1 was elected over Leo Utsinger of Ellisville to succeed Ray Wisner of Avon r.r. 1 who did not seek re-election.

District No. 3—Donald L. Elliott, a former director of Canton r.r. 4, was elected over Howard H. Vohland of Canton r.r. 4 to succeed Harold Negley of Canton r.r. 4 who did not seek re-election.

District No. 4—Edward J. DeWeerth of Farmington r.r. 1 was elected over Albert F. Probyn of Glasford r.r. 1. Mr. DeWeerth, who earlier was appointed to the board, fills the unexpired term of Ray A.

Cleer who had resigned to move out of state. There is one year remaining on that term.

Mr. Markley, Mr. Camp and Mr. Elliott all were named to three-year terms.

The new board of directors will reorganize at its December meeting when terms of the newly elected directors become effective.

Members enjoy a fine lunch prepared by the Fulton County Homemaker's Extension Council before re-assembling for the afternoon program of varied entertainment.

Effective with the December board meeting, the cooperative's directors will include (from left, seated) Floyd Hughes, Edwin H. Barrett, Ralph E. Erb, Kenneth Easley and Arie Burton. Standing (from left) are Manager William M. McCamey, Turner W. Markley, Donald L. Elliott, Edward J. DeWeerth and Bernard Camp.

What's New?

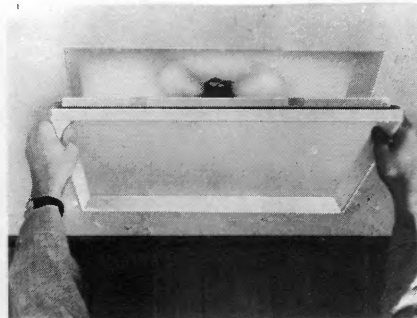

● Decorator Panels

Wood-grained decorator panels add to the attractiveness of Whirlpool's 1970 line of electric washers and dryers. A "finish guard" feature on the dryers reminds the homemaker at the end of the permanent press cycle to remove the clothes. If she is out of the house or busy at that particular time, "finish guard" will restart the dryer every five minutes, gently fluff the clothes for ten seconds and then buzz again. The dryer also has special cool-down care for permanent press fabrics.

● Humidifier

A disposable plastic film water tank liner fits into the eight-gallon water tank of Arvin's whole-house humidifier models for 1970. There is an automatic humidistat with a control switch at the top of the console finished in rust and corrosion resistant metallic bronze enamel. It has a suggested retail price of \$59.95.

● Scuttle Light

A versatile "scuttle light" that permits easy access to the attic while providing two-way illumination has been introduced by the Builder Products Division of Emerson Electric Co., 8100 Florissant, St. Louis, Mo., 63136. The recessed fixture can illuminate the attic as well by removing the diffuser and flipping the top scuttle panel over into the attic. This also clears the way for entering the attic. Easy to install, it's available in two sizes, 22 by 22 inches and 22 by 30 inches.
