

You are their priority

“Hero” is a powerful word. Our industry’s heroes literally put their lives on the line every day. Until winter’s wrath causes power outages, you probably don’t think much about them. But, as a member/owner, your safety and comfort is their priority.

If your power is out and you haven’t already heard from your co-op, call the co-op office, then check social media like Facebook or Twitter for outage restoration updates. And be patient and supportive. They’re working as fast as they can in the worst possible conditions.

A message from your Touchstone Energy cooperative.
