

Get paid for spring cleaning

Do you look forward to spring cleaning? Probably not, but what if you got paid for doing it? Including these simple tasks on your annual spring cleaning list will help lower your electric costs all year, and add a little jingle in your pocket:

- change your furnace filter
- clear dust from the dryer vent and hose, and refrigerator grill
- clean your air ducts
- rake debris away from the air conditioner or heat pump

Find out how simple things you do can add up at www.togetherwesave.com, or contact your local Touchstone Energy cooperative.
