

Herman elected SIPC board president

Clay Electric Co-operative, Inc. (CECI) Board Member Frank Herman was elected to serve as President of the Board of Southern Illinois Power Cooperative (SIPC) at the SIPC Annual Meeting, held March 30, 2018. Herman serves on the SIPC Board representing CECI and was most recently Vice President.

Herman reported that over the past few years the SIPC Board of Directors has been concerned with wholesale rates and tasked management with finding ways to stabilize rates while providing reliable power in an environmentally friendly way. "It was a tall order, but SIPC's staff rose to the challenge," said Herman. "Don Gulley, President/CEO of SIPC, challenged his senior staff to significantly reduce operating and

maintenance costs and, through a variety of measures, they managed to reduce costs without sacrificing other strategic priorities. We did

have to impose a 2.9 percent rate increase, but it was far better than the projected 10 percent increase."

**Our office will be closed
Wednesday, July 4th
in observance of
Independence Day.**

Clay Electric Co-operative office temporary location

Temporary office headquarters is the trailer across the street (North side of Old Hwy 50) during the construction of the new Clay Electric office.

Temporary office move for Clay Electric Co-operative

Clay Electric Co-operative at 7784 Old Hwy 50 west of Flora is in the beginning phase of construction of a new office building. For over a year, the Board of Directors and staff have been planning the construction process. A temporary office trailer has been set up across the highway from the current building.

On May 29, 30 and 31, the office was closed so that we could move into the temporary facility. During this time, we will be unable to process payments. In addition, the online payment portal will be down. However, there will be an outside night depository at the temporary facility.

The old office will be torn down, and the new facility will be built in the same location. Truck maintenance facility, wire storage, and the pole yard will remain in the back of the office in the same location as well.

Plans are for the final construction to be completed by the beginning of 2019. In the meantime, beginning June 1, 2018, members may conduct business as normal at the temporary location just across from the old location on Old Hwy 50.

THANK YOU FOR YOUR PATIENCE!

Anually, the Association of Illinois Electric Cooperatives awards scholarships to High School Seniors that have applied. The scholarships are from the Thomas H. Moore Illinois Electric Cooperatives Memorial Scholarship program.

One of the major fund-raising events for the scholarship program is a silent auction where directors and employees can bid on items that are donated.

Locally, Clay Electric Co-operative has requested businesses to help with a donation for the auction. Rick Slaughter of Shirt Tales in Flora stepped up this year and donated a portion of the cost of a Green Mountain Pellet grill.

We would like to thank Rick for his generous donation.

If you have an idea or a donation for next year's silent auction, please call our office at 618-662-2171.

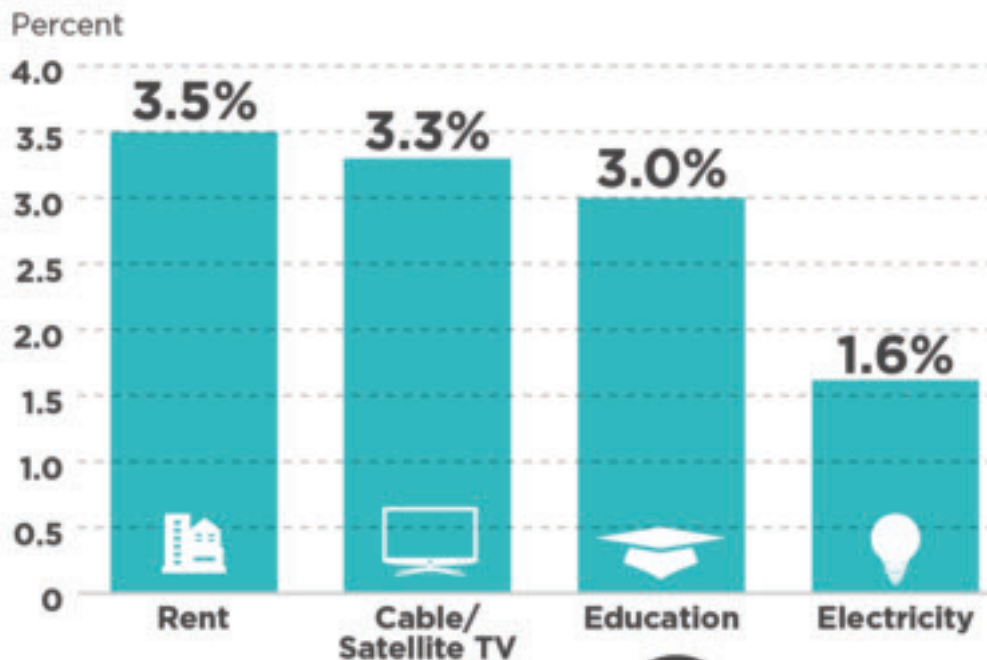

L-R Ed VanHoose, Exec. V.P./General Manager of Clay Electric Co-operative, thanks Rick Slaughter, owner of Shirt Tales, for his donation.

ELECTRICITY REMAINS A GOOD VALUE

The cost of powering your home rises slowly when compared to other common expenses. Looking at price increases over the last five years, it's easy to see electricity remains a good value!
