

# ZONE IN ON SAFETY

Distracted driving and electrical safety are connected.

Utility crews often work in an office with a 55-mile-per-hour speed limit and heavy traffic. Hit a utility truck and the lineman in the bucket could be pushed into a high voltage line. Kill or injure a lineman and you could pay a large fine and go to prison.

If you run off the road, you could hit a power pole. Bring down a live power line and it's another layer of electrical danger – to YOU and anyone in the area.
