

KEEP SAFE AND WARM THIS WINTER

When the chill of fall and winter set in, be aware of **potential fire hazards that are lurking in your home**. Whether keeping warm with heat from your furnace, space heater, fireplace, or electric blanket, **Safe Electricity offers these tips to prevent a fire in your home:**

Have your furnace inspected annually.

Always place your space heater on a **steady surface** and away from curtains, tablecloths or other flapping fabrics. Use a space heater with an automatic shut-off switch.

Be sure your **chimney is clear** before each use, and cover your fireplace with a screen to keep children and pets away from flames.

Inspect electric blankets for scorch marks or visible damage regularly.
