

**Light up your yard, driveway or business with a dependable LED security light. For a few dollars per month, we will install, maintain and supply the power to an outside yard light.**

The price includes maintenance and electricity for an automatic dusk-to-dawn 40-watt LED light. Corn Belt Energy can install these lights for members in an overhead area on a Corn Belt Energy-owned pole where there is currently a service. Some restrictions may apply.

For more information, contact us today at 800-879-0339.
