

## **An Energy Efficiency Program for Electric Cooperative Members**

HomeE is a home energy efficiency program promoting the installation of energy efficient heating and cooling systems, and insulation through financial rebates to members of Egyptian Electric Cooperative. We'll assist you in making the most energy efficient decisions with a home energy assessment. For more information, read the article in this month's Egyptian Electric center section or visit our website at [www.eeca.coop](http://www.eeca.coop).
