

Home energy tips on WSMI Radio

Doug Rye, the “King of Caulk and Talk,” brings energy efficiency home every week on his weekly radio show! “Home Remedies” is heard throughout the United States, including locally on WSMI 1540 AM in Litchfield. His show, sponsored in part by Rural Electric Convenience Cooperative, airs from 9:05 a.m. – 10:00 a.m. on Saturdays. Listeners can call (800) 477-1037 with their home energy questions during the show.

Each week, Doug Rye dons his headphones and hits the airwaves to promote energy efficiency. A licensed architect, he provides tips to help callers to his “Home Remedies” show lower their energy bills. During the program, he answers questions from listeners across the country. He also shares his expertise at over 150 energy seminars each year across the country and in articles carried in many electric cooperative newsletters.

Doug Rye is probably the best known residential energy consultant in the nation. His recommendations include the use of cellulose insulation, geothermal heat pumps, and energy efficient water heaters such as the Marathon brand carried by RECC. Doug works with individuals and contractors to help design and build the most energy efficient structures possible.

For some good down-home energy advice, tune in to “Home Remedies” on Saturday mornings, on WSMI!
