

Shelby Electric Cooperative would like to take this time to say **THANK YOU** to all our members inconvenienced during the ice storm outage January 31 - February 3, 2011. We **APPRECIATE** your patience during our restoration process. We would also like to thank all the linemen who did an **OUTSTANDING JOB** putting in long hours in less than perfect weather conditions. We also want to thank the other cooperative employees who stepped up to assist in various other support roles as well as the media who helped with updates during this process. **A SPECIAL** thank you to the 10 Jackson Purchase Energy, the 4 Adams Electric and the 8 contractor linemen who assisted us with bringing power back on to our members.
