

WE'RE HERE FOR YOU

Why do our line personnel work extra shifts and call in for extra help from other co-ops to restore your power as quickly as possible during and after an outage?

Why do we provide the best possible education to our employees?

Why are we so visible and active in the community during and after business hours?

Why do we have a local office?

It's simple. We care about you, and we live and work in this community too. Serving you doesn't stop when the day is over; it stops when the job is done. We're proud to be your Touchstone Energy electric cooperative, and it's our privilege to have you as our member/owner!

TOGETHER WE SAVE
