

A HOME FOR ALL SEASONS

The winter of 2014 has been a record breaker for Illinois. And as records were set, many homeowners became painfully aware of energy leaks in their homes. But, unlike the snow, home weatherization problems will remain with us even after the changing of the seasons.

Air leaks and low levels of insulation that let heat escape this winter, will plague you this summer when you try to keep your home cool. Spring is a good time to think about making the most adequate and effective use of energy in your home ... for all seasons.

Log on to togetherwesave.com for ideas on how to make your home more energy efficient.
