## Members can now report an outage via SmartHub

SmartHub, Shelby Electric Cooperative's new member portal, originally launched as a way for members to pay bills, looks at daily electric use and communicates with the cooperative. Go online at [www.shelbyelectric.coop](http://www.shelbyelectric.coop) and click on the pay bill icon. SmartHub's functionality also works on smart phones and tablets through a free app.

"The one feature we are excited about and hope our members start to utilize is the outage-reporting feature. When a member loses power, they can now notify us via SmartHub," said cooperative

spokesperson Kevin Bernson. "Be on the lookout for some other features to be added in the near future," added Bernson.

iOS users access SmartHub in the Apple iTunes App store and Android users access SmartHub in the Android Market. Creating a

SmartHub account is easy, just enter your profile information, choose your provider and you are ready to begin.

**Energy Efficiency**

*Tip of the Month*

Source: Department of Energy

When it's hot outside, appliances and lighting can actually heat up our homes more than we think. To save energy, minimize the activities that generate additional heat, such as burning open flames, continuously running a computer or using hot-hair devices like curling irons. This will ultimately keep your house cooler.
