

Kids learn at an early age it's better to get a treat than a trick! When it comes to opening your electric bill, we realize no one likes to feel *spooked*. So, if you ever have questions regarding your bill or find yourself wondering "*witch*" energy-efficient *tricks* you can take advantage of, give us a call at Southern Illinois Electric Cooperative or visit www.touchstoneenergy.com/energy-solutions to learn more about the most effective ways to *treat* your home!
