

ARE ENERGY COSTS **DEVOURING** YOUR HOUSEHOLD BUDGET?

5 SIMPLE WAYS TO START SAVING

Turn things off when not in use. It's the simplest and most effective way to reduce energy waste.

Run full loads in your dishwasher and washing machine, and wash clothes in cold water.

Unplug unused electronics. Many devices still use standby power when not in use.

Adjust the thermostat at night and when you're not at home to give the HVAC system a break.

Take shorter showers and turn off the tap while shaving or brushing your teeth.
