

TRICK OR TREAT

Don't Let an Electrical Mishap Be Your Halloween Trick

As you ready your yard and porch for Halloween, make sure the decorations you plug in do not become hazardous. To avoid a Halloween scare, take these safety precautions:

- Discard any decorations that have **cracked or frayed cords** or damaged plugs.
- **Do not** put any decorations on power poles, padmount transformers or any other electrical equipment.
- Use decorations that are endorsed by a reputable testing laboratory such as **Underwriters Laboratories (UL)**.
- If you are using extension cords outdoors, make sure they are **rated for outdoor use**.
- **Secure all cords** so they do not become tripping hazards.

- Plug all cords into circuits protected by **GFCIs** to prevent electrical shock.
- **Do not use nails or tacks** to hang lights or other electrical decor.
- Keep decorations **away from flammable items** like bales of hay, cornstalks or witch's brew.

Have a safe and festive Halloween complete with safe tricks and tasty treats.
