

# CALL BEFORE YOU DIG

**To help stay safe and prevent accidents, call 8-1-1** before you dig to get underground utilities marked.

Once all utilities are marked, respect the boundaries, and dig carefully. Keep at least 24 inches away from the utility line markings. Stop work immediately if contact is made with an underground line. Your first priority should be evacuating the area for safety. Call 911 to notify emergency personnel and the affected utility. Do not resume work until the area has been confirmed safe by your electric utility.
