

Youth Tour to Washington

Isabella Smith of Ashland attended Youth Tour, an electric and telephone cooperative tradition spanning decades that sends students to Washington, D.C., for an unforgettable weeklong trip.

Isabella was selected as our ambassador as part of our scholarship program. She joined more than 2,000 students representing 44 states for the annual event.

Over the course of the week, Isabella and the other students visited historic landmarks, including Gettysburg, Arlington National Cemetery and the U.S. Capitol, where they had the opportunity to meet U.S. Senator Dick Durbin. They also strolled the National Mall and explored the Smithsonian museums.

Midweek, students took part in the National Rural Electric Cooperative Association's Youth Day, where they joined hundreds of other teens from across the country to hear from national leaders and learn how to use their voices back home.

Central to the Youth Tour experience is the formation of a mock student-run cooperative called Chip 'n' Pop Co-op. Students were all members and selected the co-op's board of directors, who later interviewed and selected co-op employees. Isabella served as Secretary-Treasurer.

Throughout the week, the co-op handled sales, decision-making and budgeting — giving participants a hands-on look at how cooperatives operate.

**New
bill format
coming soon!**

You'll notice your August billing statement has a new look! The new bills are more colorful and put all the information you need right at your fingertips.

We are finalizing the layout as this issue is being printed, and we'll be able to feature more details in the next issue. A detailed description of the bill will also be linked on our website rate page at www.menard.com/rates.

We hope you'll love the new format as much as we do!

MEMBER POWERED!

88TH ANNUAL MEETING OF MEMBERS HELD AT PLEASANT PLAINS HIGH SCHOOL

Menard Electric's 88th Annual Meeting of Members was held June 17, 2026, at Pleasant Plains High School as published in the co-op's official notice. Storms struck that night and for the first time in the co-op's history, a quorum of members was not reached. In accordance with the co-op's Bylaws, the members in attendance voted to adjourn the meeting to June 24. Members were notified by phone of the new date. On that date, more than 550 members and their families showed up in the largest turnout in co-op history.

BUSINESS MEETING

During the business meeting, members approved last year's minutes and the co-op's financial reports and elected Directors. The co-op is governed by a Board made up of nine Directors elected from and by the membership to serve three-year terms. Each year three districts are up for election. This year, Leo Arnold of Bluff Springs, District 3, was elected, and Michael Patrick of New Holland, District 7, and Warren Goetsch of Williamsville, District 8, were reelected. All ran unopposed.

Members approved two Bylaw Amendments. Section 3.03 (Notice of

Member Meetings) extends the notice period for which the official Annual Meeting notice can be mailed prior to the meeting date from 40 days to 60 days. Section 4.06 (Nominations) extends the number of days prior to an Annual Meeting date by which a potential director candidate must submit a Member Petition Nomination form from 45 days to 60 days.

After discussion, a ballot vote was held, and members defeated a proposed Bylaw Amendment to Section 3.04 (Member Quorum) to lower the percentage required.

Board President Warren Goetsch spoke about the advantages of member ownership of the co-op and gave examples of local community support. He also reminded members to visit the Voices for Cooperative Power website at voicesforcooperativepower.com to receive take-action recommendations on proposed legislation or regulations that affect the co-op.

General Manager Alisha Anker spoke of the co-op's power provider's efforts to improve reliability by building new transmission lines and networking substations. She also told members

about the completion of a joint project with Ameren to confirm and document boundary lines around and within the co-op's service territory.

"It protects our right to serve, and even more so, helps to ensure that the benefits of economic development remain with the local communities that supported the cooperative's growth from the beginning," Anker said. Another innovation helping the co-op to grow will be a new advanced metering system. The co-op will mail details to members throughout the coming year.

Once questions were answered and the meeting adjourned, a prize drawing was held.
