

GEO THERMAL

HEATING & COOLING

Geothermal systems can save you **30 – 70% on your monthly utility bills** & installation is more affordable than ever with local incentive programs.

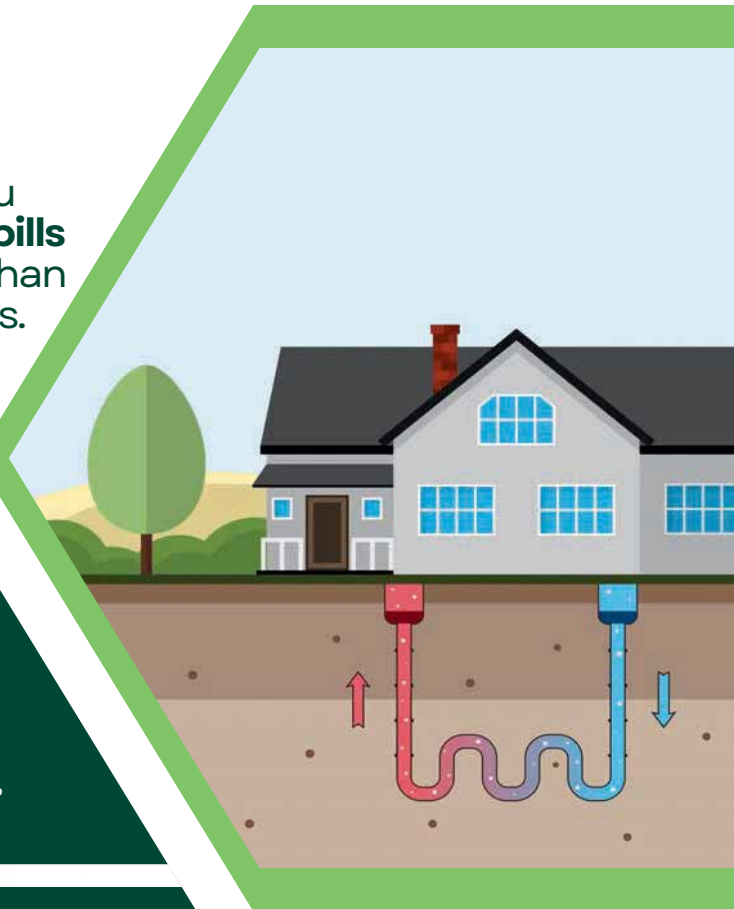

ABOUT GEOTHERMAL SYSTEMS

- Takes advantage of the stable year-round temperature found a few feet beneath the ground.
- The system circulates a water-based solution through a buried loop system, providing high efficiency.

GEOCENTS PROGRAM

- ✓ Initial face-to-face meeting explaining program details
- ✓ Program will pay to have the geothermal loops
- ✓ Member will pay a monthly fee
- ✓ Both new construction or retrofits qualify for the program

*All participants must utilize a certified HVAC contractor and geothermal loop installer for installation.
