

DON'T GET OUT

If your machinery, vehicle or other **equipment makes contact with a power line, guy wire or electrical box, DO NOT get out of your cab.** Stray power could energize your equipment and the ground.

To avoid becoming electrocuted:

- **Call 9-1-1** and wait for us to arrive to disconnect the power.
- **Wait to exit** your cab until the power is de-energized.

In rare cases you may need to exit your cab due to smoke or fire. **If you must get out:**

- **Make a solid jump out** without touching any part of the tractor or vehicle with both feet together.
- **Hop away as far as you can**, keeping both feet together as you hop away.

 **Safe
