4XAHH68AX92872934	PR1	2009 POLARIS RANGER 700 HD, 4X4, 924 Hours, 3,2XX miles.

READERSHIP PRIZE WINNER:
Virgie Reiner, Elizabethtown, IL

Local voices shape local solutions

October is National Co-op Month

When you hear the word cooperative, what comes to mind? As your local electric co-op, we hope you think of SouthEastern Illinois Electric Cooperative.

Regardless of the services offered, all cooperatives have one thing in common: They're led by the people they serve — and that simple idea makes a meaningful difference.

Cooperatives come in all shapes and sizes, each created to meet a specific need. Credit unions help members save and borrow money. Producer cooperatives, like Ocean Spray and Land O'Lakes, help farmers bring their products to market. Retail cooperatives, like REI and ACE Hardware, are owned by their shoppers or a membership of store owners, while housing cooperatives give residents a voice in managing their communities. And utility cooperatives — like SouthEastern Illinois Electric Cooperative — provide reliable electricity to the communities they serve.

Unlike many businesses that answer to outside investors or shareholders, cooperatives are built

for their members. Their goal isn't simply to earn a profit — it's to provide value, meet unique local needs and strengthen the communities they call home.

That's exactly what makes SouthEastern Illinois Electric Cooperative different.

Our story began in 1938 when neighbors came together to bring electricity to an area when other utilities wouldn't. While a lot has changed since then, our purpose has remained steady. We're still here to provide power and make decisions with our community's best interests in mind.

Being locally owned means we have the flexibility to focus on what matters most to the communities we serve. That's why no two electric cooperatives are exactly alike. Every community has different needs, and every cooperative reflects those priorities.

For some co-ops, that means expanding programs that help members save energy and money. Others may focus on supporting economic development, investing

in new technology or creating new opportunities for local students.

You'll also find the co-op difference in the little things. It's the lineworkers restoring power after a storm. The employees answering your questions when you call. The team members volunteering at community events. The board members — your neighbors — who help guide decisions for the future.

We're your neighbor and local energy partner, and we're committed to serving this community for generations to come.

This National Co-op Month, we invite you to join us in celebrating the cooperative difference, because this co-op belongs to you.

Whether it's SouthEastern Illinois Electric Cooperative, your local credit union or ACE Hardware, cooperatives prove that when people work together, everyone benefits.

Your membership is what makes our mission possible — and it's what keeps us focused on serving the people and communities that matter most.

KINDS OF CO-OPS

Cooperatives come in many forms—from electric utilities and credit unions to farm supply stores and housing co-ops—but all cooperatives are built with a common purpose: to meet the needs of the members they serve.

Co-ops strengthen local communities, keep decisions close to home and invest in long-term success.

October is National Co-op Month.

Attention Local Teachers!

Apply for your 2026/2027 Touchstone Energy Classroom Empowerment Grants

Does your school or classroom need new materials? Can your students benefit from new programs and educational resources? We thought so.

SouthEastern Illinois Electric Cooperative is once again coordinating this grant program with Touchstone Energy for our local teachers and administrators. The grants will be provided for innovative, unfunded projects or materials. Qualifying projects are those that improve the learning environment or increase educational resources for the school.

A panel of judges will determine which projects will be awarded the grants. Grant applications are due by Nov. 6, 2026. Grant awards will be announced on Jan. 27, 2027. For a grant application and guidelines, please visit our website at www.seiec.com or contact Alex Hansen at 618-273-2611 ext. 160 or alexhansen@seiec.com. It only takes a few minutes to apply.

Since 2006, SEIEC has distributed a total of \$82,200 in Touchstone Energy Classroom Empowerment Grants throughout the Cooperative's service area.

POWER OUTAGE

If your power goes off, we offer these suggestions

1. Check the fuses or circuit breakers in your service panels. If you have breakers, make sure they are in the "ON" position.
2. If you have a meter pole, check the main breaker panel just below the meter socket. If the breaker is in the "OFF" position, check all of your wiring from the meter pole to your various buildings. If the wiring appears to be okay, reset the breaker to the "ON" position.
3. If you still do not have power, check with neighbors to see if they have power.
4. To report a power failure or other emergency, please phone 1-877-399-8405. This phone number is monitored around the clock, 365 days per year to accept your outage and emergency calls.
5. Your phone call will be handled by SouthEastern's automated outage reporting system and will be identified automatically through ANI (Automatic Number Identification). An outage record will then be generated for your location. Please note that the phone number

from which you place the call will be the number used to generate the record. If the system fails to recognize your phone number, members having touch-tone phones may simply enter their seven-digit phone number (without area code) in order to report the outage. Members not having touch-tone phones will be asked to leave a message. It is important you leave your name, phone number and location of the outage. Retrieving messages and entering them into the system is time consuming; therefore, please leave only a message that will help in restoration of electric service. Do not remain on the line for an operator because a live operator is not there to respond. In order to keep a current listing of all numbers, it is important that you notify the Cooperative of any changes in your telephone number.

6. Handling outage calls electronically allows you to report power failures very quickly. Once your outage has been reported, it will be dispatched to repair personnel who will restore your outage as soon as possible. Calling back repeatedly will not shorten the length of the outage, but may hinder the efforts of other members who are trying to report outages.

OUTAGE CALLS ONLY 1-877-399-8405
